

Services Briefcase

Who are we?

Have you checked how much your insurance covers for the procedure you need, or does it even cover it? Why should a million-dollar company decide what health care is best for you? Those very questions drove the founders of MedTravel, Daniel and Daniel, a doctor and a nurse, who don't believe in borders when it comes to bringing people closer to their healthier versions and finding a solution to their health needs. Instead, they realized that their country and city could be the answer. You will access a better quality of life and a unique experience tailored to your needs.

We offer you the opportunity to travel to one of the most beautiful and innovative cities in Latin America for a much lower price and much higher quality (both in humanized care and medical skills) than you could access anywhere else. So, let us guide you on your trip, schedule your appointment with professionals and certified health centers, and organize your itinerary, hotel

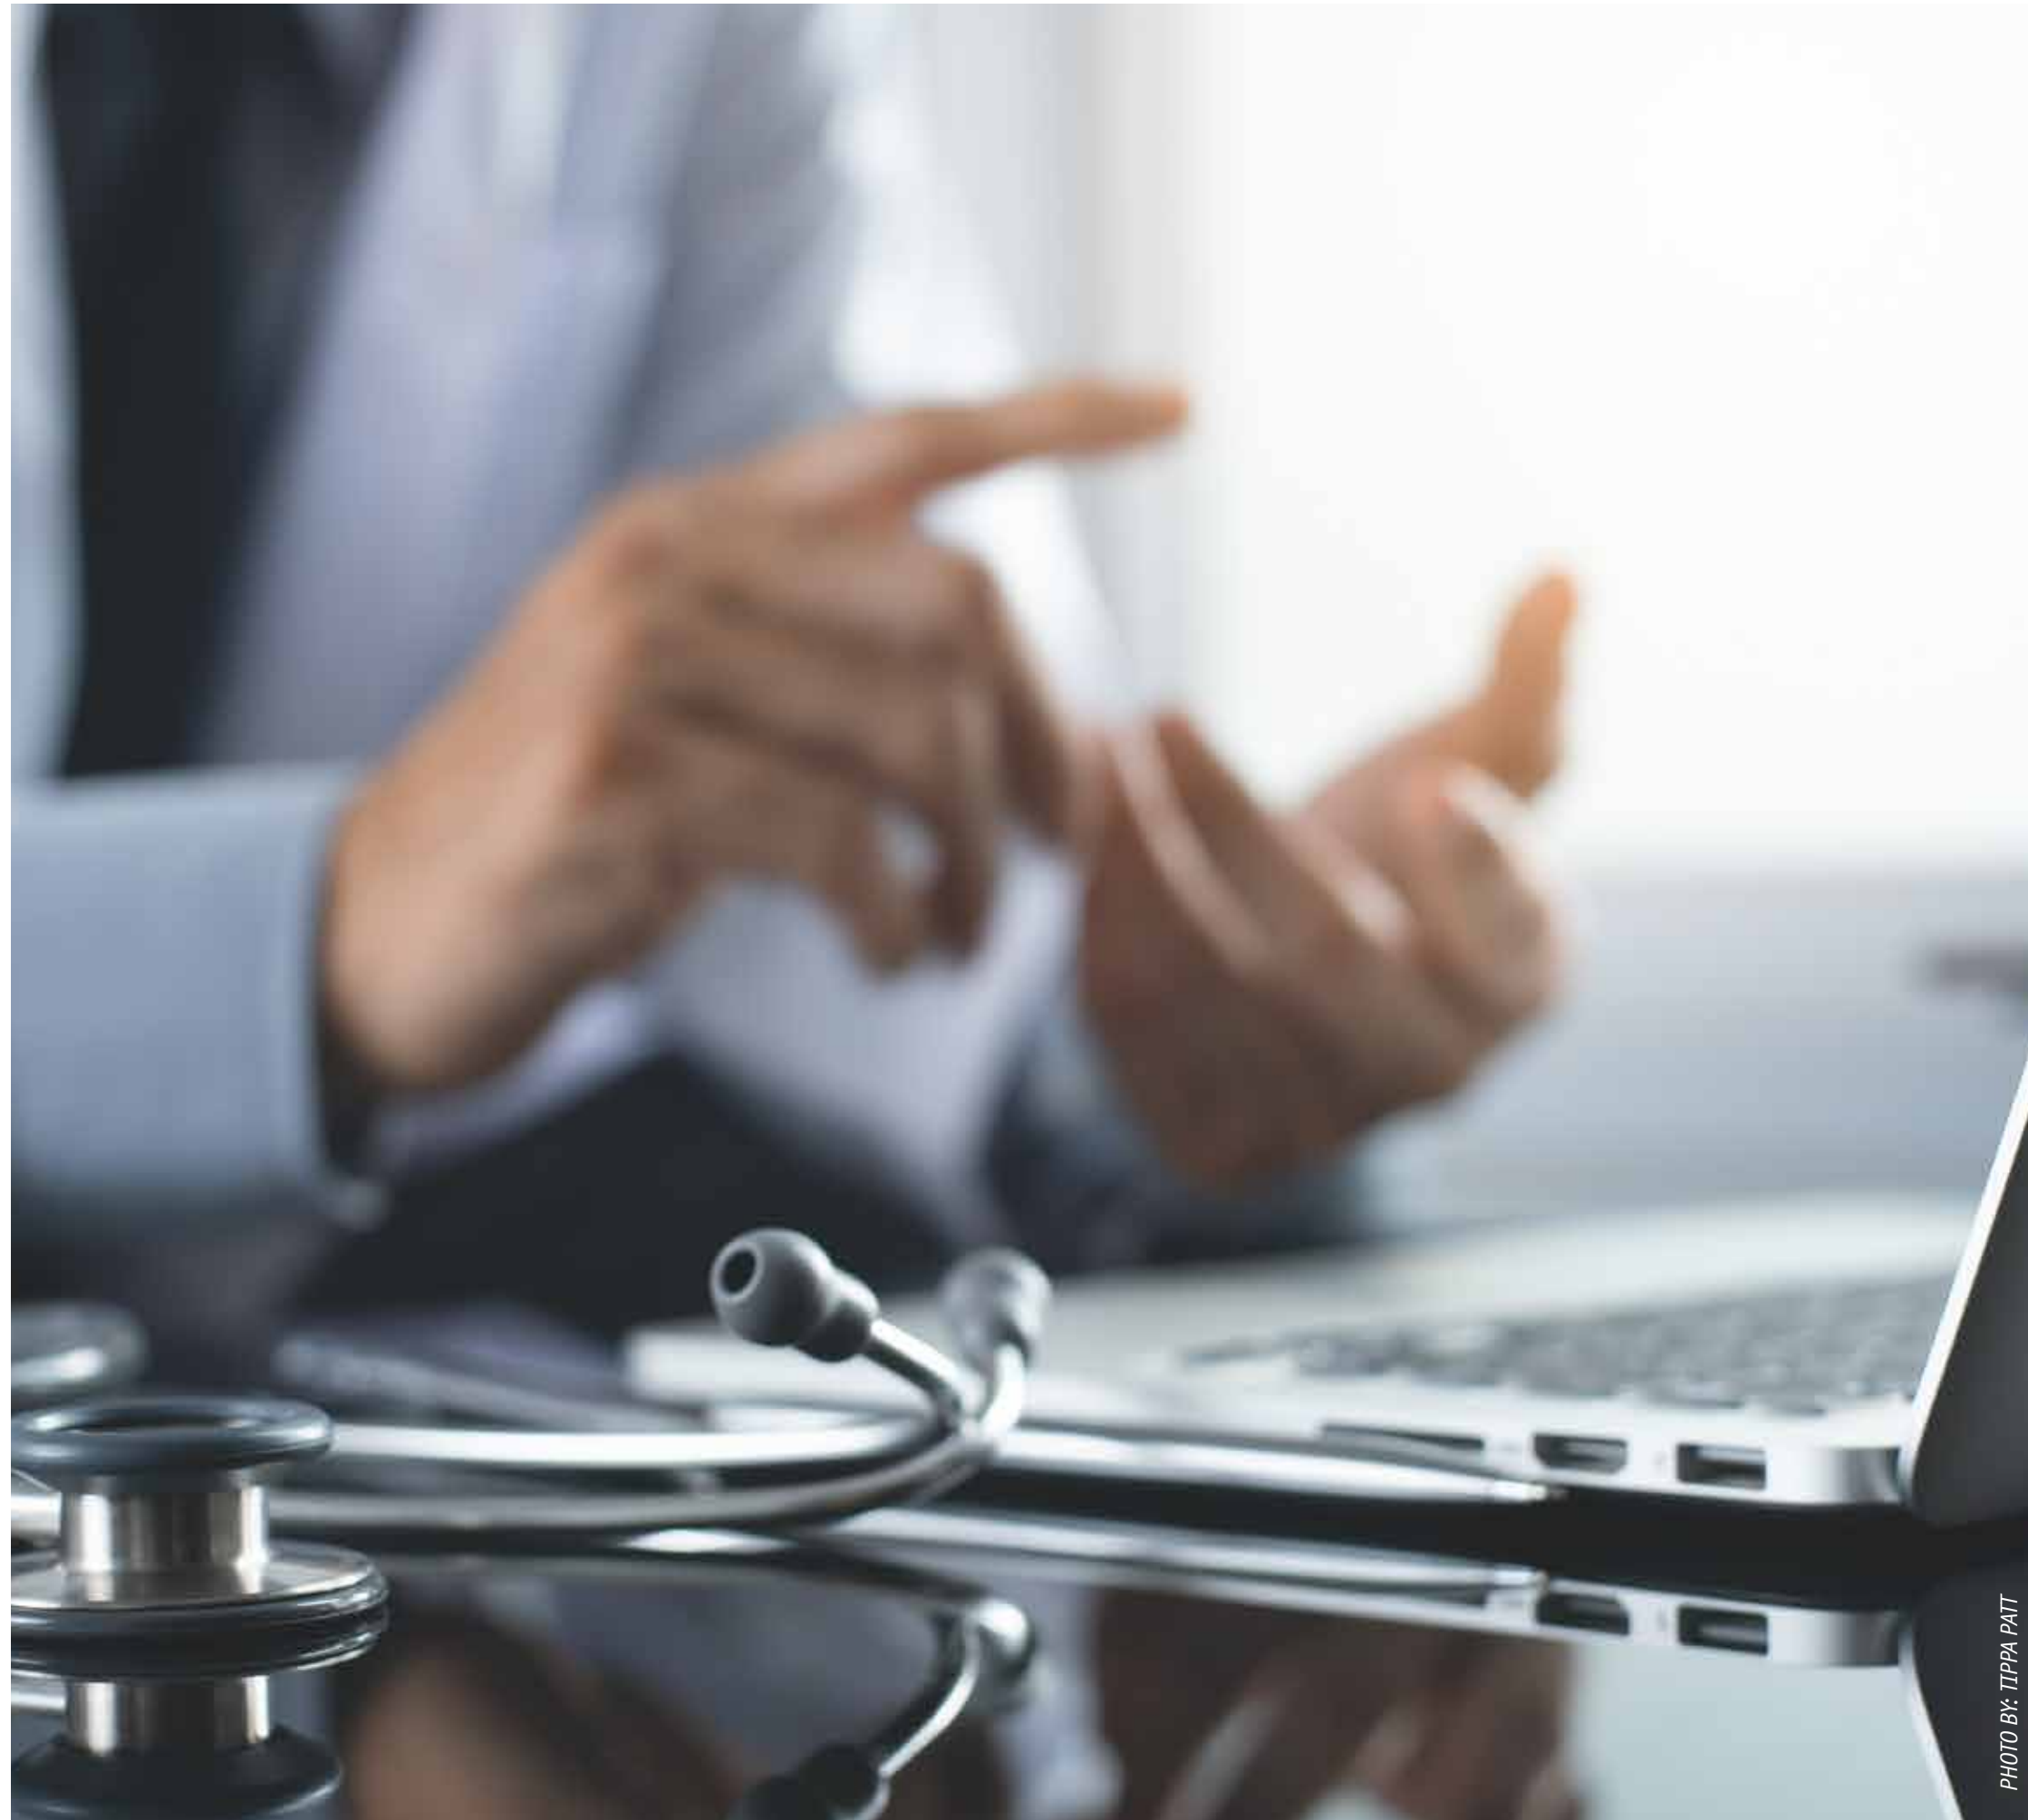

stay, touristic activities, transportation, and everything you need so you can focus on what is really important, your health!

Where are we located?

In the middle of the Colombian Andes lies the beautiful Aburra Valley, where spring is everlasting. Medellín was born and grew here to become the cosmopolitan city it is today, where you can find a mix of tradition and innovation like no other place in the world. Nominated in 7 World Travel Awards categories and winner of South America's Leading Emerging Tourism Destination 2022, Medellín is quickly becoming an iconic place to visit not only for its diverse gastronomic offerings, exciting nightlife, and biodiversity, but also because it is home to the highest quality health services in the region, with several of the most renowned health centers, hospitals, and clinics in Colombia and South America. Medellín is a hub of fun, culture, excitement, wellness, and opportunities for a better quality of life.

Is it safe to travel to Medellín?

Medellín has evolved rapidly since its most difficult years in the 1980s and has become a city sprouting with progress, innovation, and transformation. It is now considered the best urban destination in Latin America, according to the World Travel Awards 2020. It received the distinction as a Smart Tourism Destination, awarded by the State Society for the Management of Innovation and Tourism Technologies from the Ministry of Industry, Trade and Tourism of the Government of Spain. Medellín is also known in Colombia for its wide and fast WiFi coverage with multiple public and coworking connections, which makes it worthy of its 4th place in the ranking of the best city in the world for remote work according to the German company WorkMotion. It is worth noting that the city has some of the cleanest water in the region, so clean that you can drink directly from the tap! For all these reasons, we can confidently say that Medellín is a safe place to travel, and with MedTravel, your experience will be guided by our bilingual healthcare professionals at all times. They are native to the city, so you can easily navigate cultural differences without problems.

The following support services are included in all packages:

- **Pre-trip medical and nursing advice:** We understand you may have some reservations about traveling abroad for your medical needs, and that is why MedTravel has an excellent medical and nursing team to solve all your doubts and prepare you before the trip.
- **Policies and life insurance:** Travel safe and relaxed. At MedTravel, we provide you with the best travel policies, so you have nothing to worry about.
- **Appointment scheduling:** Our goal is to make your life easier. Give us your time availability, and we will make it happen by organizing your travel schedule and getting you appointments with the best professionals.
- **Logistical support for transfers and accommodation:** In the city, there are thousands of options. MedTravel helps you find the best one that suits your needs with the most outstanding comfort and safety.
- **Connectivity:** We will facilitate permanent communication with your contacts, family, and business during your stay. MedTravel offers you mobile connectivity plans and high-speed wifi internet at the place of your stay.
- **Home medicine (bilingual medical and nursing assistance):** We know that you are going through an important process; therefore, you will be cared for at all times by health professionals to ensure your well-being.
- **Post-treatment medical advice:** You will always be part of the MedTravel family. We will provide you with medical advice even after you return home; you just need to make an appointment.
